Dear Deputy Attorney General Paul Connell:

Thank you for your May 24, 2017 letter.

We appreciate your offer of complete transparency and sharing factual information. As previously stated, due to inconsistent sexual assault kits numbers reported by the Department of Justice (DOJ), we respectfully request a written response to our original inquiries:

- The actual number of untested kits currently in Wisconsin's inventory;
- The actual number of kits that DOJ has tested thus far;
- The actual number of kits that have been designated for testing but that have not yet been tested;
- Of the actual number of kits that have not been designated for testing, the reason those kits will not be tested, and the percentage breakdown for each reason;
- The actual number of untested kits that have been sent to private and state labs, respectively, for testing.

This is a matter of statewide interest, and we hope you understand our concern over the misinformation that has come out of the Department and the need for these answers in writing.

Respectfully,

Representative Melissa Sargent
